

Annual Electors' Meeting 2021: Statement

Batheaston Parish Council (BPC) would like to thank the huge number residents that attended the meeting and to assure those could not attend that we will try to ensure everybody access at future meetings. Whilst Councillors are very excited at the enthusiasm generated, we also listened, and our detailed response is attached.

BPC has fallen short on delivering on electors' expectations for many years and so we ask that residents allow the inheritors of its seats the space to concentrate on honouring their commitment to moving forward with the actions detailed in the attached document, as well as undertaking their usual duties in an open and transparent way.

From its Councillors, BPC expects them all to always respect their collective responsibility, and that will enable them to work with you to harness the enthusiasm we saw at the Annual Electors' Meeting in a happy and exciting way. If you are not already involved, we would urge you to join us or another of the groups established and establishing themselves in the village, so that you gain friendship, fulfilment & influence and the whole community benefits from your skillsets and ideas.
